The Imperial family possesses a huge gold bar, and its part is the design left in Taiwan. I decided to take 160,000,000,000,000 yen of considerable gold bar out from there and offer USA one for the half of 80,000,000,000,000 yen.

Western various countries went into the world in the great navigation era, made the Asian countries a colony and traded, the Western side is substantial so that it may be seen by trade with China. The one in Asian countries had a high cultural degree, so it's because there was almost nothing I'd like to buy from Western countries. As a result, gold and silver flowed from Western various countries in quantities.

Caused one was going to recover this condition even a little, and the Opium War. I tried to sell opium made in India to a Chinese and reduce a trade deficit. But it wasn't possible to take back the gold and silver which flowed to Asia perfectly.

Because they were revengeful, a westerner was waiting for the chance to get gold and silver back. So that they had their eye made the imperial army and navy invade Asian countries at the Japanese Empire, and I made them despoil of a gold and silver treasury, and the end made Japan be annihilated, and tried to take oneself's.

<http://d.hatena.ne.jp/nk2nk2/20120415>

The one an emperor made make war is for plunder of a gold bar. Well, the people which are Asia in the country which became the sacrifice which is again. Good-bye.

The gold bar in which I also equal to sleep in Philippine far in the mountains in 24000 tons of Imperial Household name minute and 14000 tons of Vatican City name minute. The total volume of the buried gold bar is called by 175 totals 141,000 tons.

Though Japan is a vanquished nation, an emperor reigns over DA as the biggest money lender in the world now.

Former Keio University constitutional law lecturer KT Hisashi Yasushi who has often gone out to that television is a grandchild of Mr. Ltcol KT Tsunenori Miya.

14000 tons of Vatican City name part and 24000 tons of Imperial Household name part. Because it's 1900 tons a year, the official total output of the money of the world is here for 74 years of the total output of the world.

Though Japan was a vanquished nation in a war, substance was the biggest upstart large country in the world.

But a true owner of these gold bars is an owning thing of the international finance capitalist who is a war proprietor and also the royal family on it according to Mr. Takahashi.

The Japanese military were used to exploit a gold and silver treasury from Asia.

When Japan entered the war, Japanese going south was performed very early. A fund played the role sufficiently. Japan was invaded instantly with Cambodia, Thailand, Indonesia, Burma and Vietnam. All those countries were a colony in European countries. And a great deal of gold bars were waiting for the Japanese military in the bank which was in those countries (bank in an occupation country). Without troubling Japan, I have had 90% money in European countries in my hand. Japanese "engine" is established from here, and the "gold lily strategy" by "engine" starts. These "engines" are the organization different from the Japanese military. It was the very strong organization which could do to use the army and a navy for transportation of a gold bar.

The army persons concerned of the world and overseas hired soldiers make a contact with  
Mr. full Ford, please.

Mr. full Ford (mail:postmaster@benjaminfulford.com)

<https://www.youtube.com/watch?v=DQ9q3mG7W6E>

Mr. full Ford

[I'd like to explain the way which doubles the living standard of Japan within 1 year  
realistically specifically.

First a coup (= release) is necessary to Japan as a major premise.

Because Japanese Japan Self-Defense Forces aren't open for a long time so much, it may be  
forgot.

A basis occupies the Bank of Japan to do a coup.. The after Department of the Treasury.

NHK and other TV station. A newspaper is occupied. The Prime Minister's Office and the  
Diet Building.

Oh, it's to be made of about 10,000 people at most. I don't need the number of people so  
much.

It's declared on the people urgently with that..

Japan was taken over..

An eastern Japan great earthquake was so and the seismic shooting offensive to Japan..

The people who were doing that were just arrested..  
It'll be so and Japan is reorganized now. I occupy by saying so..  
It's TO which nationalizes the Bank of Japan, Omoto of money is suppressed.  
When man of an old system says the Bank of Japan here of course.  
When inflation occurs when a central bank is nationalized.  
That's a bushel of lies.  
It's money that infrastructure happens, it's printed badly.  
But when there is a point neatly, I even have to cause inflation.  
A government bill, entirely, with be be.  
In case of Canada  
From 1938 to 1973, while.

The war expenditure of the Second World War. And  
Cost of the canal which connects the Lakes to the Atlantic.  
Canada, country construction which extends.  
School expenses and the university cost  
National Health Insurance.  
Everything is done without taxes and debts. That's because a government bill brought it.  
When so the Bank of Japan is taken over.  
The insurance which is being paid everyone's now disappears. A university cost disappear.  
And because a public works project and Japan Self-Defense Forces can be served in  
government bills, it isn't necessary to pay national tax and it'll be..  
Instead of national tax, government bill.  
The national tax taken from monthly payment, and.  
National Health Insurance and a tax, etc., it disappears.  
That returns at itself. That's possible.  
To use such system well of course.  
The best example of the various worlds.  
For example because everyone goes to a doctor like every day when the National Health  
Insurance is made just free, a burden is left 10 percent.  
To be attracted from a salary every month disappears.  
When an important one begins another new government fundamentally.  
Tokuseirei is needed once.  
I say a jubilee in English.  
It's limited once and all borrowing money is done to do nothing..

Country, area and individual. The people who have housing loan don't have to pay all that, too..

Redistribution of assets.

In the long run you return 30 percent and 40 percent of the Japanese major company taken by a threat of an earthquake weapon.

At the time calculated at the front, only with that.

Considerable money enters 10,000,000 per a person of Japan people.

All that's made within 1 year.

Because it can be done realistically very specifically.

These people don't object face to face.

Because it's discounted.

Inflation happens to that negatively and a year is unexpected and.

But I don't meet with argument where it's bad face to face.

Because I know that it's discounted.

Now is the system to make a debt slave.

Because it's the mechanism to make the people poor.

That would be sanctioned by various quibbles.

For example.

I'm going to make the waterworks charge doubling and do highly in more than 10 times of this time.

A son Taro Asabu's-in-law, man of Rothschild clan.

A president of French water company. The translations which try to hand him everything.

We're going to set the waterworks charge to 10 times with that.

Because a water pipe is serious and it can't be maintained a little.

Because much investment in plant and equipment is needed.

That it isn't foreign capital-, think.

The bullfinch which isn't understood, the translations doing eight hundred.

"Call the front labor market liberalization, and in short lower a salary.", a regular member doesn't need..

Japan people are being made poor one after another by the request I say.

The living standard is going down more than 90 percent of Japanese one after another from 1985 for Japanese.

The general living standard falls from 1972 in case of the United States. More than 90 percent of people.

While bringing such mechanism to an end.

The process which prints and divides money.

Justice is the dimension of the clear information elucidation, and the smart bureaucrat who passed decides a state examination with the politician who was chosen in the performed general election.

I'm not the clan of devil worship who doesn't understand. Primarily.

Everything is made of that..

This is as expected, so.

The Bank of Japan takeover is urgent business..

When I get there.

So fooled politician.

Because that's an acting group really.

I'm hearing talk for Mr. hostess in the hostess bar a politician plies, too, but it's as expected.

If saying-, I'm an ordinary actor. A script is being just read. TE says.

Because that's fact.

To want to say another here?

It's reviewed with the people who are in front of the difference.

Leaders of the world are from Vatican City bank.

I get the bribery account of hyakuoku from 100,000,000,000. It's managed with that.

The Omoto and its charge are George. I was Perret cardinal.

The translations which were that person last month in judgement of guilty by a child sexual abuse and are overthrown.

When he said at a living room of the world, so Omoto of the Labour Party of a politician got the sack.

The thing by which a fundamental change will be possible now.

At the time when Japan Self-Defense Forces nationalized the Bank of Japan of course, the seventh fleet and close teamwork flirtatiousness time marrow.

Neatly, the people approve this talk, too.

Because I'd like also to do the same thing in the United States. These people.

It's possible now. Because it's a very rare chance.

When that isn't taken, it's too wasteful.

So I say to people of the police repeatedly for people of Japan Self-Defense Forces.

A conning tower of a foreign devil worship Mafia called the Bank of Japan is taken over first and it's nationalized.

Also, a brainwash is being sent to the people.

Major mass communication is nationalized. Temporarily. The people are so and know the truth.

After it's so, all the members fire an incompetent politician and the actors immersed in bribery. Such thing.

I think I may say almost all 2/3. A Japanese politician is immersed in bribery of the Third 2nd generation, bonbon. It's so and I'm not clever. There are no right.

The one dramatically important to the end is takeover of corporation MUSASHI.

In case of Japan, it's after an eastern Japan great earthquake, when what do you say happened?

Japanese spineless politician and rulers approved Abe political power born production.

The company Abe's grandfather was so and made. MUSASHI. The company Kishi Nobusuke made.

It's that a vote is totaled more than 80 percent with that. That was so and the one of a (American) representative dispute committee.

Now is Masayoshi Son. Uh, Masayoshi Son who should be bankrupted. I'm not saying oh suddenly.

It was that and election thief charge, you look back and what is it?

The election which is true because it's such thing. The politician the people chose is really necessary.].

There even isn't everything from Manyoshu. From Manyoshu, ordinary distortion.

The true meaning is this ( ↓ ).

reiwa

Number of a devil of  $2 + 0 + 1 + 9 + 5 + 1 = 18 = 666 = \text{demonist}$

Moreover 5.1 on emperor's change day is Il minae tea establishment day of devil worship.

Surely, rei wa didn't think BARE RU in half day.

Korean's emperors and others, Abe, Asabu and IRURIMINATI are the vulgar fellows who discuss and appreciate a vulgar word.

When "reiwa" is translated by a common language of demonist "Esperanto", it'll be very vulgar pronunciation.

[https://www.youtube.com/watch?v=rRny5\\_s2Y70](https://www.youtube.com/watch?v=rRny5_s2Y70)

By the Esperanto reading IRURIMINATI uses, "reiwa", "MANKO". "MANKO" is vagina by the meaning of Japanese, and it's pussy.

The one the kanji was made reverse to which "Kazuo" is the meaning of "penis".

The vulgar fellows who are also glad for Abe and Asabu's and others Koreans to discuss a vulgar thing for emperors and others. Japan is made stupid.

Or, if the meaning of the back of "reiwa" = "REIWA" is also "zero Japan" = "REIWA], it comes. A kanji called Japan is Japanese.

The Japanese "is made "zero Japan" to eradicate". This is the true meaning of "reiwa".

But that's impossible, that it's killed! They were a shock as well as surprise. Was it necessary to do to there really?

When this is true, indeed something rank "is covered". You say Japanese Government, say a mine company and make the investigation thorough, and could you handle accurately?

Unfortunately, Japanese media let only almost all news in an English area run.

The children who could forget a moth klunk

There are a lot of children of mixed race background in Congo. Their father is the Japanese who has come to the mine where a south-eastern part is a moth klunk to work. They're denouncing fathers today. It's that I tried to kill them in order to erase all traces before returning to Japan. Our reporter asked their approval and collected data in mestizos.

REPORTERS

Par Arnaud ZAJTMAN / Marlene RABAUD

Coverage: Arnaud and ZAJIMAN/Marr lane and Rabaut

Congolese women allow their children of mixed race background to have been killed by a Japanese father deliberately. Japanese fathers have come to the moth state to work klunk in 70 's. Legal political correspondence to them is being dead letter-ized.

For a Japanese laborer as much as hundreds of people to mine a Congolese main copper mine during 1983 from 1972, I was staying at a KASUNBARESA mine area (border region of Zambia and Congo south-eastern part).

The Congolese mineral industry which produces copper of 5000 tons a day is a leading. Congo is the best in the world copper producing country.

But vice evokes a memory for this fact for Yvonne, KAINBA and the neighborhoods. They showed us the children's grave which has formed between the Japanese at a graveyard in a village. Before a father returns to Japan according to them, it's said that it was killed deliberately.

"A Japanese doctor has had contact with my offsprings who become 1 year old. A child has died on the next day." Yvonne says.

The female of 10 people is informing us about similar testimony. Besides the much also has a child, but I say that only a mestizo with Japanese has died.

A mestizo with the Japanese born at the time when we could meet "is surviving" for them.

Money was made by the charm dealing with a trucker in a present location area, but NANHA and mosquito Misawa were hidden in the place where a look doesn't stick, and were brought up. "Our grandparents were saying "It was killed at a town.". We were brought up at a village with that."

Everyone could be close at a village, and the mestizos who came could be brought up and survive by the favor.

KOWE and Karbe are doing a small pharmacy. "My grandparents avoided bringing us to the hospital. We were saved from death, and could survive by the favor."

Japanese doctors settled a hospital in a mine. I say the mestizo's death rate with blinded Sebastian and the Japanese who visited in treatment according to KAHOJI MUYUNBA excelled in a former nurse now, and that it was expensive. "The death rate is too high, so, why it is, I wondered. Japanese was saying to whether he was no one that he didn't want to leave the mestizo in Congo. In other words it was suspected of poisoning."

The regulation of a factory was severe. A Japanese laborer's associating with my local daughters was prohibited. One person of a factory person in charge in those days says so.

But I say a secretary-general marten of SODIMICO (Congolese industry and industrial promotion association) and MAJENDE. Since also finding a good-looking lady at the inside,

a Japanese laborer showed into a bed and lived under the roof one (...). But we couldn't call the family.

Moyse and the SHOKUWE Diet member who promote investigation activity by the Diet believe deliberate child killing to have been performed like many witnesses, too.

The Japanese Embassy in a zai Congolese Democratic Republic refused this statement. A Congolese vice minister of foreign affairs sent a verbal note for a Japanese ambassador in Kinshasa on October 6, 2007, but there are no answers. To the question FRANCE24 sent, like, the Japanese Embassy is refusing a reply.

Children's killing by medicine of Japanese Doctor!

Shintaro Abe and Saki Yokota kou are my elder brother younger sister. The Crown Prince's child who is a plum dynasty together.

Unexpected information entered at the quarter which can be trusted.

Mr. Saki Yokota kou and Shintaro Abe are my elder brother younger sister. Shintaro is Yamaguchi's.

For an adopted child of politician Hiroshi Abe.

Descendant of a Korean plum dynasty. Since I get positive kindness for Shinzo, the one of the cousin

A child.

Japanese politics are changed by a descendant of Korean Susumu Lee of a dynasty perfectly.

Therefore abduction issue doesn't exist between North Korea.

People of Megumi's manager are opened already.

American CIA taught other people irrespective of North Korea, and a victim is missing. Even if I say to North Korea, how much is it wasteful? As that would be a problem. The person who did actual kidnapping also has the something to discuss that he was a Caucasian. The United States was prepared to block a Japanese relation with North Korea where a rump of the Japanese military is shutting itself up. By a thing, North Korea is also a victim. My parents are closely related marriage of the said grandchild family of Korean Susumu Lee of a dynasty, so it's closely related and doesn't Shinzo Abe have intellectual disabilities? This is bad as a Japanese politician. It would be the person who crushes Japan.

Shinzo Abe and Ms. Megumi Yokota were between the cousins.

So Mr. Saki Yokota kou is the extraordinariness he'd like to say to Shinzo Abe. Because I'm my aunt.

Japanese politics are changed because of the family's problem.

Abduction issue is meaningless. It isn't a problem between Japan and North Korea.

mixi user August 5, 2018 15:45

Last king Susumu Lee naturalized in Japan, and the last Korean dynasty was Japanese.

One person of the son is Kishi Nobusuke. By the tree and the child by which a bank is a letter of a plum, KISHI. Another person's of son's children are Mr. Saki Yokota kou and Shintaro Abe. I became adopted child and got Abe's last name.

Shinzo Abe's mother is Kishi Nobusuke's daughter, so Mr. Abe will be a child of marriage between the cousins.

Kake Kotaro is a child of Kishi Nobusuke's child. Or Shinzo Abe is between the cousins.

When seeing a face, it's obvious.

Unexpected Japanese appropriation.

mixi user August 5 16:26 in 2018

Mr. Shinzo Abe doesn't have a child and a successor doesn't have.

The seat Mr. Abe is desperate for it to take blood of a Korean dynasty over, and where I'm a Prime Minister with that, sticky. You'd like to do at such fact Korea, not Japanese, right?

I'm not Japanese originally, so with considering no national things, I can think only the (clan) assets are increased as a successor of a Korean dynasty.

Eight plans of net

A policy make AI simulate maximization of national interests and optimization, and also make judge one, a policy, a step and diplomacy, and, subjugation. Judging and when making councilors and officers decide, I make the personal greed get mixed, and is always haunted by the policy which are more and less. Of course, abolish an Imperial system immediately of course. A false emperor tricks a people forever, cheats and monopolizes in this way and that, and, oh!

Two and a councilor and an official servant do general replacement by all the countries up to the limit of 10 years. If I say the continuity, do half by shifting for 5 years. Because I make them think it's long and made, it goes bad right now. When neither government nor autonomy are also a personal one, it isn't also private property of decided specific person and group. I take in equally from each generation every 10 years up to 65 years old from the 25 years old of all generation and make them undergo metabolic change. Make them send a tax salary declension person by the high post.

Issue all three and money at an own country. Don't make a private bank issue it. AI, a robot and a web will exceed the ability of the person completely already 10 years-20 years later, so a person can't get any more the income for the ability. 150,000 provide BASIC income every month per 1 person until I die from born time.

Be a demerit four and an international treaty and a decision with an other country, and when I go out, don't decide at all. Bring peculiar Bunka and identity in an own country up. To whichever country I go, don't assume that the same TOKOROTEN culture and style are good.

Offer food, clothing and shelter of a people, information and education sufficiently only by five and an own country. When difficulty has gone out to self-support by a natural disaster and an economy reason, make it the system that aid is supplied automatically from the world. Until university graduation, basically, make the public educational expenses without charge completely. Confiscate all fortune besides the grave charge and assets after death. Birth, poverty and wealth, the trivial differential and the upper and lower structure are just produced. Because there is BASIC income from born time, it should be unnecessary.

The ruler with will who tried to have six, a stone, perishables, a weapon including chemistry and a weapon go to secure it right now. The people which are attacked and threatened go to protection. I don't make them kill together. I make a robot go to go to securement and protection together. I won't make them make war any more. I don't make any people kill by a quarrel. Everything is rescue by protection by securement. Make a ruler face the trial which includes execution after that.

This way where seven, election, politics and administration are watched is also 10 year limit, a people, general replacement, more than 100 prepare a non-governmental organization. An engine with the authority always to watch, check it and make councilors and officers quit is needed a lot! The world engine equivalent to UN is also more necessary than 5 engines. Because it'll go bad immediately, it's necessary to try hard to improve itself and make them select with improvement. Also make a staff circulate through this world engine with the maximum limit of 10 years!

Eight and an individual be an idea and make sure that the making and selling can run complete business. Still it wouldn't meet AI, but personal will, mind to do and desire. Of it's to respect. Or make the number of people decided according to the sales and the benefit the law I have to employ. By the ability of the person, already, AI, a robot and a web, you can't excel. Even development. When not doing even that, a person becomes business in the age when all except for a representative is unnecessary.

[It's important.] I agreed with England, America and France on "agreement between 1921 year state" in London for emperor Hirohito of a heinous addict to make the Second World War in 1921!

Osaka-fu eastern National Police Agency

<https://www.youtube.com/watch?v=WtpBaNgipho>

Mr. Toshiro Senba.

For the first time, I blew the whistle on a slush fund problem of the police by a real name as  
the present post police officer.

"After it's performed in this Japan in this 21st century very much that everyone will be heard  
now.

I think if it's to have that actually, it'll be to hear the story which isn't believed absolutely  
now.

That, specifically, the National Police Agency, the area police and 270,000 people who  
mixed completely.

When a staff puts it in, too, close to 290,000 people are in the police, aren't they?

The slush fund which is about 400 oku en was probably made until around 2000.

When 200 oku en would be a slush fund even if I come soon.

I need a receipt certainly.

I need a receipt of 160 okuen.

Of course, the number is the wonderful number.

The police which is everything for it, all staff and the car driver.

You're a driver of the police, right?

Staff of school lunch of a police academy.

Such as safe societies and crime prevention societies.

I make all staff who work at the police station write it.

The young person who became a policeman hard by a high will writes it while crying with a

heart to make the "false receipt".

The written moment and a suspect of "forgery of a private document". Penal servitude in more than 3 months and 5 years.

The police force which was being eaten by such thing is the present police organization.

So the police organization now is in this country called Japan, and all groups are at all various office and in enterprise, aren't they?

To the place that a crime is being performed through duties daily calls "gangster" and "the police".

It's the Japanese police now that I have died to the place how can't which be done.

Managers of the police are everybody and a criminal.

Oh, a slush fund at a 1000 and millions of yen a year is made with 1 National Police Agency of about 100 people. This is an average, isn't it?

<https://www.youtube.com/watch?v=WtpBaNgipho>

And it's about 40 percent, for example that an officer comes its one as "slush fund" in the beginning of the year in city marshal thanks at New Year's, that case's dish charge and point. And "everyone does drunk driving" at the back lift-off which fought against juu kendo, and, a taxi ticket is handed.

It's used for money at such time.

Because so oh gives one hundred steps of this, and "is public", the, oh, oh, oh, oh, it can be permitted.

But, a police chief puts the price as 7,000,000 or remaining 8,000,000 in a bag with the full amount cash at personnel transfer time of March, and I relocate.

It's here to say "When I become a police chief, a house is built."

There are no people who refused the money by my police life for 41 years.

And when it's done for many years when I become a police chief, it's proper talk to say "Myself have many houses besides the house of a pretext." gulpingly.

There is "section of authorization" to the police in particular, isn't there?

I'm a pinball saloon and it's various entertainment and amusement business and.

When I became a police officer, the Bon festival and the end of the year are herring roe and the one from which a box of herring roe comes to 1 person, aren't they?

I'm fine with MO-one which can't be bought at all by us and come. A sho bottle comes head count with DE-N 1 person. Each box of beer bottle comes.

Such thing was the proper world gulpingly.

So that you can live now richly richly got "present" from the traders, and and was the world of the police force of the those days, wasn't it?

Q. What purpose do traders give a present?

Of course, "I want you to add" allowance"., it's natural to have a cozy relationship with traders.

I get a thing from a gangster, and it's proper.

All the members weren't doing, but it had become true in the deplorable organization.

A police officer is shedding tears, is crying with a heart, has it and is doing" forgery of a private document".

When not doing, "retaliation" like me is received.

Because so all the members are a criminal. When I say severely. So (fact) didn't leak so far.

It's a taboo that a police officer takes money."

But it isn't only the police.

The scoop Appointment for SPECIAL for the 8th year The Tamaki Mitsui Shuntaro X. Torikoshi scoop SP

January 18 of this year Shizuoka prison

Spring of this year and 1 man, a prison term, I expired and was discharged from Shizuoka prison.

8:14 in front of the Shizuoka prison.

"Mitsui Mr. fatigue!"

Even a parole wasn't usually admitted....

The goon squad person concerned is 1 very much for a parole's usually being not admitted and becoming mature authorship.

It matched an important post as this man and Osaka high public prosecutor's office public safety chief director.

The back big artillery barrage. "Of investigation reform carrying out!"

A male name, Tamaki Mitsui (the firewood which was seen and struck). (65 years old)

8 years ago, I was going to do some whistle-blowing as an investigation executive of the present post now.

This is Mitsui's natural voice recorded before arrest.

Tape mentioning "Mr. Mitsui. Sound"

Mr. Mitsui "In the time a fictitious informant is made up and when it's little in a night, 100,000 yen. A lot of time is about 300,000 yen. More than 90 percent eat and drink. I say clearly, and it's a binge."

Slush fund problem of investigation. A receipt is counterfeited, and the investigation cost of activity which should be used for the dissemination of information force primarily (the dissemination of information force) is slush fund-ized.

The investigation is made the biggest taboo by the suspicion an investigation executive

appropriates.

I say that Mitsui who is an active top ranking official will blow the whistle on that by real name visit.

An interviewer is Shuntaro Torikoshi. It should be unprecedented scoop coverage.

But

Mr. Mitsui "It was arrested in the morning Mr. Shuntaro Torikoshi is planning to film from noon

exactly. A crime of slush fund making of investigation. It was arrested to avoid this detection."

Keeping of Mitsui who kept denying an accusation also reached 325 days. I say that it was called number 623 which cries with the name at an accommodated Osaka prison.

Mitsui by whom bail was done (in March, 2003) 1 year later, its chagrin, BUTCHIMAKETA.

Mr. Mitsui "Anger to a frame-up of investigation. The bottom of an abdomen is the feelings which boils up."

Close adherence! The former attorney who did imprisonment to a prison" slush fund charge". Former Osaka high public prosecutor's office public safety chief director Tamaki Mitsui.

And as soon as it's bailed out, I have begun to develop a slush fund charge promotion energetically.

While the Ministry of Justice side denied completely, whistleblower of the 3rd person appeared at last.

May 24 and the telephone partner. The 3rd charge person.

Mr. Torikoshi "Is the thing testified to by a real name OK." "Yes is good."

Mr. Torikoshi "Safety is being probably investigated."

Its figure was the deputy attorney who crossed in 21 years and worked by an investigation Ministry in northeast all part.

Former deputy attorney. Mr. Takahashi Tokuhiko.

"Whatever it'll seem from other people, it can be said "One did such thing.",

so, it's the case that this isn't a bullfinch, could everyone know."

Trick(1) of a slush fund "empty business trip"

Former Nara district public prosecutors office secretary Otawara Masatsugu (36).

Mr. Torikoshi "How is the one as the slush fund produced?"

"In the area I know, the" empty business trip".

Whistleblower of a slush fund of investigation is Mr. Takahashi including an arrested Mitsui indictee, the 3rd person. Those testimony is being attached excellently.

I say that an empty business trip starts from a fish search first according to Mr. Otawara of a former Nara district public prosecutors office secretary.

The character of the screen "Fish search of a business trip. Whether there are any good ingredients for sushi, (secretary) comes to look for it..."

Mr. Otawara "Whether there are any good ingredients for sushi, the translations which come and come near to look for it. Please open a cabinet. Please? Show it a little. With PA-. Please say that I'd like this. Please say DEE borrowed a little. Please return and make a copy. The translations used in an ingredient for sushi with that."

The character of the screen " "Material can be checked and say.", it's borrowed, a copy is made and that's used in an ingredient for sushi. That's used in an ingredient for sushi, what kind of thing is it? That's used in an ingredient for sushi of a business trip. In rationalization of a business trip."

Mr. Torikoshi "That's used in an ingredient for sushi, what kind of thing is it?"

Mr. Otawara "well. That's used in an ingredient for sushi of a business trip. In rationalization of a business trip"

<https://www.youtube.com/watch?v=WtpBaNgipho>

Former deputy attorney Mr. Takahashi Tokuhiko

"The trick of the empty business trip Mr. Takahashi experienced is also similar mostly."

The character of the screen "an office work section chief would like to come well, "Is Mr. Takahashi uneventful?" TO"

Mr. Takahashi "an office work section chief sometimes often comes. Whether Mr. Takahashi and something are uneventful. Oh, how is it, 。 is done translations."? How about this

"They're the translations which show a form."

Mr. Takahashi "This, shaku, please. If, it's done."

"Please?"

Mr. Takahashi "And, you get a business trip by the event."

"Who goes?"

Mr. Takahashi "No one goes."

Please "show a form of the character "event of a screen and then lend this to me", for. You get a business trip by the event, right? Who goes to (business trip)? No one goes."

<https://www.youtube.com/watch?v=WtpBaNgipho>

"When there will be operation of a seal in case of an empty business trip later, 2 former secretaries say in unity."

The character of the screen "operation of a seal"

Former Nara district public prosecutors office secretary Otawara Masatsugu (36).

The character of the screen "if I (section chief) thrust at a stamp because it's a business trip, it doesn't open,"

Mr. Otawara "I already, such one and that and. It's a business trip, I come near, and, if a stamp sticks, it doesn't open. If the name is also used, I say a thing as AKAN ZO."

The character of the screen "RU which is differing if a stamp is in the agency on the same day, and sticks to become on a day of a business trip,"

Mr. Torikoshi "If a stamp is in the agency on the same day, and sticks, I'm differing from to become on a day of a business trip."

Mr. Otawara "Immediately, I'm differing. It's various. It's a check."

Mr. Torikoshi "Is it that I'm not here?"

Mr. Otawara "Immediately. That's right. It's that I'm here and am not here."

The character of the screen "I'm differing so. By-check"

The character of the screen "I'm not going to be (in agency) on the day. So. I'm not going to be here."

The character of the screen "I'm (in agency) and am not here."

Former deputy attorney Takahashi Mr. Tokuhiko.

The character of the screen "We don't push an attendance book (for stamp) too constantly."

Mr. Takahashi "We remain and are KO and the one which isn't pushed towards an attendance book constantly."

The character of the screen "Why? When it's pushed poorly, it's pushed at the business trip."

"Why?"

Mr. Takahashi "That one recognized that it was pushed poorly at the business trip, because it's pushed."

"In oh becoming a business trip"

Mr. Takahashi "If a stamp is being stamped, isn't it strange?"

"It's a residence."

Mr. Takahashi "so you'll push it later about for 1 month", right?

You push it behind the character of the screen " (for stamp of an attendance book). About for 1 month (together)-".

The character of the screen "the Public Prosecutor's Office. For a slush fund, for secretary-

general"

The character of the screen "The police which should arrest a criminal changes into the criminal organization and still indicts a criminal event, and even the investigation brought to trial rots. But it isn't only that."

Mr. former Teruo Ikuta of a bench in Osaka high court

Mr. Ikuta "Everyone, good evening. It's Ikuta."

The character of the screen "Why does Mr. Ikuta have a flashy figure?"

Mr. Ikuta "I'm a judge for 22 years, resign from it by home circumstances after that with that and am a lawyer for 24th year now by Takamatsu."

Mr. Ikuta "Various people's not doing with that is being done, so whenever my friends are killed by you, it isn't understood. If. If I run
